BRELLA CLASSIC CANVAS **.27**

Typical PVC Mesh .74  
Typical Acrylic .61  
3mm Clear Glass 1.0%

Brella Classic Canvas Awnings have been scientifically proven to reflect the most solar radiant heat and absorb the least. Brella Classic Canvas Awnings have a Zero Heat Transmission Factor and a .27 shade co-efficiency factor. What this means to you is cooler ambient indoor temperatures, efficient all-year round shading, privacy and protection of your valuable furnishings.
