

Shade by design

# vistaweave

Keeps out the sun,  
lets in the view.

The unique see through awning fabric that  
shades without losing your view.

## Keeps out the sun, lets in the view. Beautifully.

Vistaweave is a unique awning fabric that keeps the sun out whilst still allowing you to enjoy the view. It lets in the light, keeps out the sun and keeps your home looking good.

Available in a wide range of colours and patterns, Vistaweave is made from hard wearing, UV stable PVC. Exceptional strength and durability make Vistaweave ideally suited to fixed and roll up awnings, interior roller blinds, outdoor furniture, umbrellas and shade sails.

### Guaranteed good looks

Vistaweave is made from high tensile PVC fabric. The polyester inner core of this yarn makes it extremely long wearing and durable. An outer coating of UV stabilised PVC ensure your awnings, blinds and shade sails retain their stylish looks for many many years. In fact we guarantee it.\*

### At home on any window

Vistaweave is not only at home on residential windows and outdoor areas, but is ideally suited to industrial and commercial installations as well. It's durable, UV stable material make it ideal for fixed awnings and shade structures.

### Keeping your cool

Filtering out the sun's harmful UV and glare, Vistaweave delivers up to 90% shade. It's open weave construction means Vistaweave won't trap heat under the awning and allows air to flow freely in and around your awning. You'll stay cooler in the heat, reduce harmful glare and reduce your cooling costs.

### The one and only

There is only one Vistaweave. It's been tried and tested and has been delivering stylish shade solutions to homes, offices and commercial premises for over twenty years. When you're specifying shade material for fixed and roll up awnings, foldout awnings and shade sails, insist on Vistaweave. It's shade by design.

### Vistaweave at a glance

- Filters out up to 90% of the sun's damaging UV rays
- Shade factor of 80-90%
- High tensile, hard wearing PVC construction
- Reduces interior temperatures
- Reduces cooling costs
